RE: Supersede Request for FCC ID: 2AM7H-KTMULSPR granted on 09/25/2017

We want to apply to replace the 1<sup>st</sup> page of user manual with the one without manufacturer name on it, as it is not allowed to show the manufacturer name on it when our customer search it on internet. As the existed one has manufacturer name on it.

Since the grant of FCC ID: 2AM7H-KTMULSPR has now exceeded the 30-day grace period, we would like to make a supersede request in order to replace and re-submit the user manual for this FCC ID.

Thank you,
